Come see an exciting display themed from the festivities surrounding Mardi Gras.

Golf Shop News

We hope you have “braved” the cold weather! We know that warmer temperatures will be arriving soon. The 2009 Tournament Schedule through August is attached for your information. There are numerous date changes to existing events and exciting new events that you have requested. Please take time to review this schedule and make plans to participate. YOUR participation is the key to the success of ALL events. The tournaments for September through December will be finalized when the Clemson football schedule is released.

The Member-Member kicks off our championship schedule April 25 and 26. The Men’s Member-Guest will be played May 15-17. The earlier date should give us excellent golf course conditions and perfect weather. The addition of the Plantation Cup is a tournament that will be a two-person team with gross and net divisions. This event will be contested on June 6 and 7. Our newest event will be the Couples Member-Guest to be played on June 27 and 28. We are pleased to announce that Cross Creek Plantation has been selected to host the 58th South Carolina Open. Entry fee information, schedule of events, and other pertinent information is available for each event in a Microsoft Word document. Please email mernst@crosscreekplantation.com to receive this information.

Core aeration of the greens is scheduled for March 2nd and 3rd. This process is necessary to ensure healthy and quality putting surfaces throughout the season. We appreciate your patience during this much needed maintenance procedure.

Please remember that the dress code policy is in effect at all times for the golf course and practice areas. Please contact Mark if you have any questions regarding the dress code.

Golf Course News

February is upon us and it is time to prepare for the 2009 season. We have been renovating bunker drainage around the course and have several more to do. As time permits, this project will proceed and more sand will be added where necessary.

Underbrushing, tree removal, greens collar replacement and drainage work around the greens has been a priority this winter and I believe you will see a difference this summer.

Soon we will be starting the aerification of fairways and roughs. The scheduled aerification of the greens is Mar. 2 & 3. Recovery time will be approx. 4 to 5 weeks, depending on the weather.

The main concern at this time is the sewer project. The first area of disruption is # 14 fairway. This hole will be closed during this period, which depending on the weather and the amount of rock underground, could last 2 to 5 weeks. During this period, we will be closing the back 9 for periods of 2 to 3 days for renovation purposes. When the work gets to # 16, there will be no way for golfers to pass and the back 9 will be closed for approximately one week, which we think will be in early March. Hopefully, weather permitting, this project will be near completion in March.

Please repair your ball marks, fill your divots and enjoy your game!
