# Golf Shop News

The Golf Season is just around the corner as we march slowly toward Spring! We will kick off the Tournament season with an 18-Hole Mixer on Sunday, February 14<sup>th</sup> at 1:00pm. The comprehensive Tournament Schedule will be sent in early February. Please note the Club major events that will be listed in this Schedule. We are looking forward to you participating in all these events. We have added Nine and Dine events beginning on Friday, April 23<sup>rd</sup> starting at 4:30pm that will be played each week that we do not have conflicts with Club major events or Outings.

Please help us with two concerns that we have on the Golf Course. We are finding practice balls on the course that are designated for the practice range only. **Practice is NOT permitted at any time on the golf course.** Also, the use of range balls on the course is not permitted. Continued use of range balls on the course will result in a price increase. Please help us to avoid this ongoing problem that we have had.

Our mission in the Golf Operation is to provide a fun and enjoyable experience each time you come to Cross Creek Plantation. In order for us to better serve you, we ask that each player register before your round. We can therefore advise you of the Rules of Play for each day and make you aware of upcoming events and any maintenance work that may affect your round. Thanks for your attention to this procedure.

**The Golf Course, Practice Facilities, and all other Club facilities are CLOSED on Mondays.** Play or practice is never permitted. The Grounds Staff uses this day for chemical applications and other projects that cannot be completed when we have golfers on the course. If the Grounds Staff or Golf Staff finds anyone in violation of this rule, your privileges will be suspended for not less than ten (10) days. Damage that could be done to greens and playing areas are very significant when certain chemicals have been applied.

# Golf Course News

The cold weather and the continuing rain have not been the best conditions for golf and maintenance projects. We are still making progress in some areas but not in others. The underbrushing is going well but the drainage work and the bunker drain work are behind schedule. The repairs on the irrigation leaks are progressing slowly. When we dry out some, please be aware of the repair crews that might be scattered around the course.

I have scheduled the greens aerification for March 1,2 and 3. During February, we will hopefully aerify the fairways and roughs.

Please repair your ball marks and respect the “cart path only” conditions.
